

COLONIAL

the original handcrafted hot tub

MAKE YOURS
Bespoke

YOUR SPACE IS OUR SPECIALITY

We build bespoke Hot Tubs to your requirements with expert installation. We can customise tub features, fittings and finishes. Pumps, filters and heaters can be fitted out of sight to suit your new build or existing outdoor area. Please contact us for a free consultation.

Step into Luxury

Soaking in a Colonial Cedar Hot Tub is a truly luxurious and natural experience. Relax and unwind in a depth of over one metre of heated, filtered water with therapeutic massage jets.

Canadian Heart Cedar Tubs

We only use the finest quality PEFC™ certified Canadian Cedar with its natural anti-mould, anti-bacteria and anti-decay tannins giving the hot tub a longer life.

Traditional Coopering Construction

Handcrafted using traditional coopering techniques creating a watertight seal without the use of epoxy resins or glues – a technique we've been practicing for over 45 years.

QUALITY GUARANTEED

Our reputation is built on high quality products made in New Zealand, combined with unbeatable service. Colonial Hot Tubs Master Craftsman, Charles George (Chubb) firmly stands behind all products with a 5 year Tub Warranty and after sales service.
